My quilts are done using traditional patterns and I enjoy using bright color combinations. Most are hand quilted.

Artist Bio

Laurie was born and raised in Pennsylvania, but now splits her time between Florida and North Carolina. She has been quilting off and on for 40 years while raising two children who are now married and with children of their own. After operating a Museum Store at the Brevard Art Museum in Melbourne, FL and organizing their international travel program for 25 years, she is retired and enjoying the freedom of quilting as much as she wants.

She has so many ideas and so little time, but loves the NC mountains. There are many fellow quilters with whom she can learn from and share patterns.

Artist Statement

I love the endless variety of colors and patterns quilting allows. Give 10 quilters the same pattern and the same fabric and you will get 10 very different quilts..
